

INNOVATORS EASTER CAMP COMMITMENT FORM

Interested parent/guardian and youth participants must read, complete and sign this commitment form to register.

Innovators Camp is an exciting camp where you can learn to build and create, meet new friends and have fun watching your creations come to life. In this Easter Camp you will discover your creative talents as you learn about robotics, music, dance, drama. You will even grow your own food, learn to take good photos of the things you create and few words in Spanish! The theme of this camp is: I am strong! I am unique! I am beautiful! Anything I imagine I can create!

If you are signing up for this camp, consider yourself to be very special. Many young people have not yet the opportunity to do robotics, photography, gardening or to innovate. It will require some patience and teamwork but you will learn to make different types of creations from day one and it will be lots of fun!

Of course like anything else, there will be rules - so you will remain in the areas designated for our camp; treat your friends kindly always; be respectful at all times to the facilitators; fully participate in the sessions; carefully handle and pack away all pieces of the equipment once you are completed with your projects.
